

Keep Flocks Calm with Stress-free Lighting.

Optient Lighting from ONCE Now Available Through VAL-CO.

The Industry-Tested, Chicken Approved Lighting Solution

ONCE scientists and engineers took a bird's eye view to develop a solution that can decrease feed conversion up to 4 points, improve animal welfare, and decrease energy usage by up to 70%. With energy-efficient LED technology and a focus on optimizing poultry productivity, this lighting solution truly offers that bridge to nature, proving to be best in class performance and animal welfare.

Performance You Can Count On

www.val-co.com

Optient is the revolutionary solution that empowers growers and integrators by helping to improve feed conversion up to 4 points, reduce energy use by up to 70%, and improve animal welfare by keeping flocks calm and stress-free - leading to a happier and healthier farm.

Benefits:

- **Improves Animal Welfare** - Promotes chicken's natural behavior and reduces stress overall
- **Reduces energy up to 70%** - Up to 70% energy savings compared to modern LED ceiling lights
- **Easy-to-install** - Modular LED lights with a patented twist-and-hook system for hassle-free installation at any spacing

Optient's cutting edge technology promotes the natural behaviors in poultry. Happier chickens aren't just the humane choice, they are the smarter one - as it leads to healthier harvests. Optient gives the chicken the choice to regulate their environment based on their natural preferences and needs for feeding, resting and exploring. This allows them to grow strong and thrive in your barn.
